## Electric 450kg Mini Dumper Power Barrow The Tufftruk Truxta 450 BENDie

Part of the Kelsey Eco Range from FTH, the Truxta 450 BENDie is an electric battery operated mini dumper with a 450kg load capacity. This robust 4wd articulated power barrow makes light work of all terrain, slopes and inclines, indoors and outdoors. The fail-safe dead-man brake system and intuitive hydrostatic controls provides the safest possible operation. Operating silently with zero emissions proves it to be a safe favourite especially in confined spaces or noise sensitive areas.

With an overnight charge of the battery using either 110v or 230v, this useful little machine will work a full day's shift. It can be used with the conventional forward tipping skip or, for heavy materials handling, available with a flat bed. These versatile 4x4 machines cause minimal ground disturbance compared to mini tracked dumpers.

<b>MODEL</b>	Electric TB - 450E	
<b>MOTOR POWER (kW)/v</b>	DC Brushless Motor 1300W/24v	
<b>FUEL TYPE</b>	2 x 12v AGM Batteries	
<b>MAX. PAYLOAD</b>	450kg/990lbs 10.6ft <sup>3</sup> /0.3m <sup>3</sup>	
<b>UNLADEN WEIGHT</b>	kg	255
